DETAILED ACTION

This application is a 371 of PCT/US05/03429 01/28/2005 which claims benefit of 60/540,612 01/30/2004.

Claims 25-41, 42-60, 65-72 and 73-78 are before the Examiner and subject to the following:

Election/Restrictions

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group 1, claim(s) 25-41, drawn to a
composition comprising R_F-Q_g, wherein R_F comprises at least
three -CF₃ groups and Q_g is not a proton, methyl group, or methylene group.

Group 2, claim(s) 42-60, drawn to a
composition comprising R_F-Q_g, wherein:

R_F comprises at least two -CF₃ groups and at least two -CH₂- groups; and

Q_g is not a proton, methyl group or methylene group.

Group 3, claim(s) 65-72, drawn to
composition comprising R_F-Q_g, wherein R_F comprises at least two
-CF₃ groups and Q_g comprises an epoxide group.

Group 4, claim(s) 73-78, drawn to a
composition comprising R_F - Q_g , wherein:

R_F comprises at least two $-CF_3$ groups and a cyclic group; and

Q_g is not a proton, methyl group, or methylene group.

The inventions listed as Groups 1-4 do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: the special technical feature found in all the groups is one, two or three CF_3 groups containing moiety. This is not a contribution over prior art as such structural elements are shown in the following applicant provided document.

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
